Station Skills

See “ice sheet” handout

Station Notes/Comments

- Break the large group up evenly into 4 smaller groups.
- For the skating skills, keep in mind that most any skill – with the exception of control turns – can be done both forward and backward
- Although a skill is suggested, feel free to improvise. For example:
 - Add pucks.
 - Combine skills (e.g. crossovers around circle and then control turn on a cone by the blue line and back into crossover around circle)

Station Layout

Use the 4 corners of the arena. Have one on ice coach keep track of time and blow a whistle to “switch” after 7 minutes at each station.

**Thank you to Adam Rutzick for the station ideas.
